Pressure and Vacuum

CUSTOM VACUUM GLOVE BOX

Engineered for Controlled Environments.
Built for Precision.

Our Custom Vacuum Glove Box is designed to deliver high-performance containment and process control for advanced R&D, material handling, and sensitive applications.

KEY FEATURES

- ✓ Custom-built as per application and process requirements
- ✓ High transparency for excellent visibility
- ✓ Robust stainless steel frame with acrylic chamber
- ✓ Integrated vacuum system for precise pressure control
- ✓ Gas purging and pressure monitoring options
- ✓ Ergonomic glove ports with secure sealing
- ✓ Leak-tight design ensuring safe and stable operation
- ✓ Suitable for powders, composites, metallurgy & advanced research

BUILT FOR PERFORMANCE. DESIGNED FOR SAFETY.

Safe & Controlled

Isolated environment for sensitive processes

Clear Visibility

Transparent chamber for unobstructed operation

Reliable Operation

Precision-engineered for long-term performance

Custom Solutions

Tailored to meet your exact application needs

TRUSTED ENGINEERING. SUPERIOR SOLUTIONS.

From Concept to Commissioning – We Deliver Excellence.
